### DETAILED ACTION

1. This action is in response to applicant's amendment received on August 5<sup>th</sup>, 2010.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Borjesson (2003/0000992).

Borjesson discloses the same invention including a movable clincher 7 having a clincher piece (vicinity of 7 shown in Fig. 20) that is engageable with staple legs 72 penetrated through binding sheets 70. The clincher piece is opposed to a striking position of a staple (see Fig. 21) and is rotatable. A clincher cam 8 is rotatable about a shaft (see Fig. 4) and has a cam surface directly engageable with the movable clincher 7. The clincher cam 8 rotates the movable clincher 7. The clincher cam 8 is driven through a drive link 2 directly operated by a drive mechanism (see Fig. 1 and paragraphs 0041-0042) for driving a staple into the binding sheets 70.

Regarding claim 2, the cam surface includes an arc-shaped part formed to have the same radius from the center of rotation of the clincher cam (see rounded tip that contacts the movable clincher 7 in Fig. 22).

***Allowable Subject Matter***

4. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Anderson is cited to show a related invention.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

7. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
